1. Login

1.1. Login Interface

Login entrance: Home page of the website -> “Login” on the upper right

A screenshot of a login interface on a dark red background. It features three input fields: 'Username:' with a person icon and the text 'system'; 'Password:' with a key icon and masked dots; and 'Verification Code:' with a text box containing 't h a s t'. Below the fields are a red 'Login' button and links for 'Forgot Password?', 'Register', and 'IP Login'.

Username:

Password:

Verification Code:

[Login](#) [Forgot Password?](#) | [Register](#) | [IP Login](#)

Figure 1.1: Login interface

1.2. Operation Steps of Login Functions:

- 1) Please click on “IP Login” on the bottom-right of the login interface (see Figure 1.1)
- 2) When accessing home page of the website, you’ll automatically login to our system if your current IP address is authorized.

Note:

Error tips

Your current IP doesn’t belong to any organization, so the IP login function is not available.

Instruction

If your IP address is not within the IP ranges provided by your organization, the IP login function is not applicable.

The simultaneous user number of your organization has reached its maximum limit. Please try again later.

The simultaneous user number of your organization has a limit. You’ll fail to login the system if the simultaneous user number has reached up to its maximum. In this case, please try logging in after a while.

1.3. Exit

The “Exit” buttons of home page (see Figure1.3-1) and inner pages (see Figure 1.3-2) are located on the upper right corner of the interface.

Figure 1.3-1: Exit button of home page

Figure 1.3-2: Exit button of inner page

Steps:

- 1) Click on “Exit”, and you will logout.
- 2) When exiting from the home page, user can still browse the home page by refreshing the web page because the website supports anonymous access to the home page.
- 3) Otherwise, for pages which can only be accessed via login, refreshing will result in the automatic skip to the login interface on which users need to input the login information.

2.Home Page

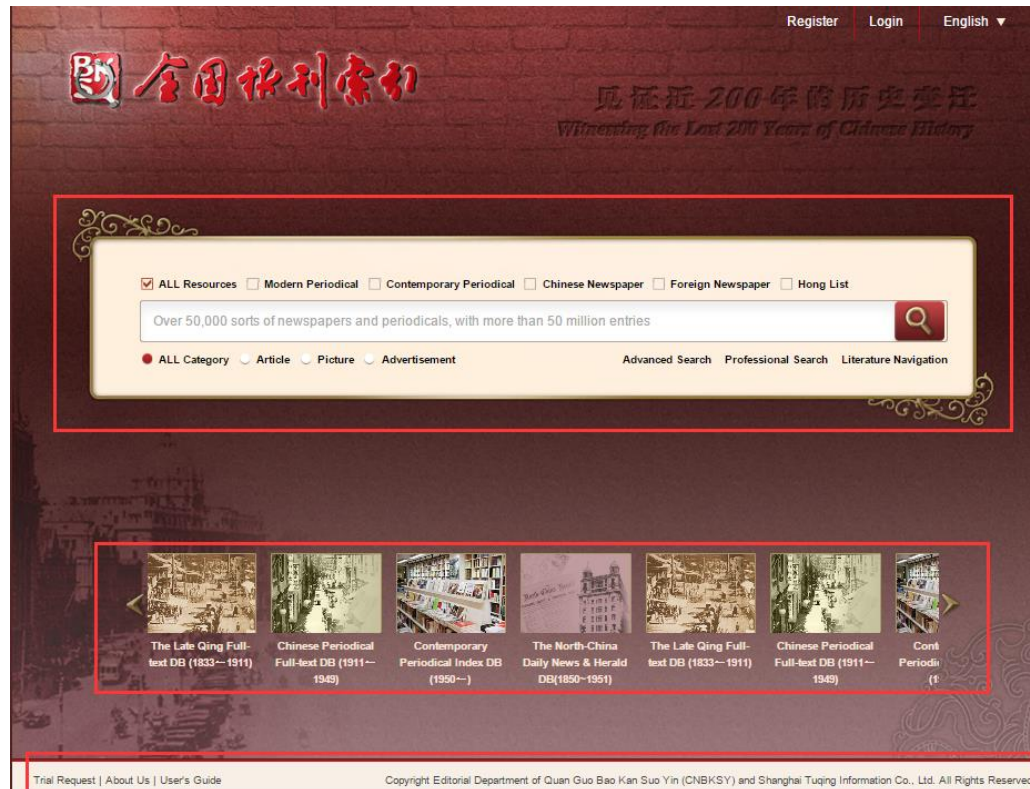

Figure 2: Home page interface

Introduction:

- 1) Upper right side: “Register”, “Login” and language swift buttons.
- 2) Middle part is the basic search bar. (For details, please refer to the basic search function hereinafter.)
- 3) The lower-middle part is the scrolling region for database introduction.
- 4) The footer is the information region of “Trial Request”, “About Us” and “User’s Guide”. The copyright information is placed on the right side of the region.

3. General Search Function

3.1. Search Results

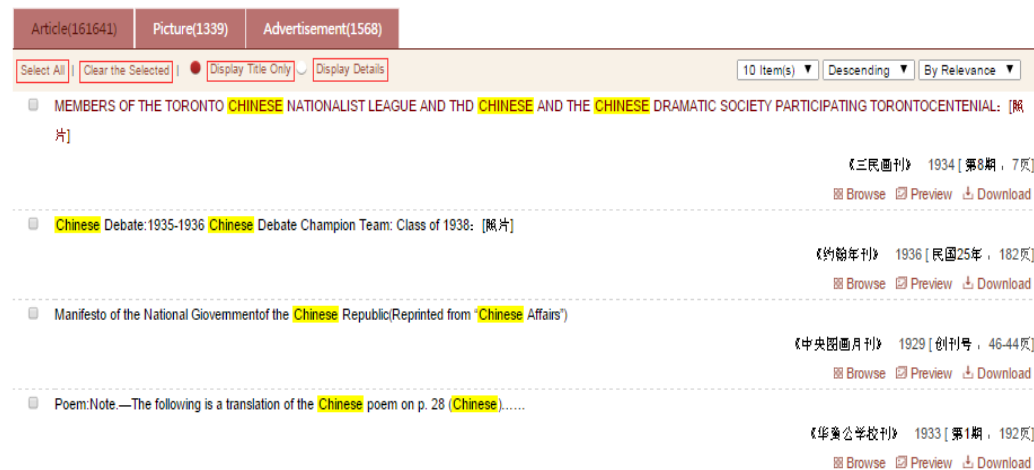

Figure3.1: Search results

Function Introduction:

- 1) Click on “Select All” to choose all the search results of current page;
- 2) Click on “Clear the Selected” to deselect all the records selected in current page;
- 3) The system supports “Display Title Only” by default (see Figure 3.1). Click on the “Display Details”, and the information will be displayed as follows:

Select All | Clear the Selected | ☐ Display Title Only ☒ Display Details
 10 Item(s) Descending By Relevance

☐ 影响上海电力需求的主要因素及电力需求预测

黄晨宏 《电力需求侧管理》 2011 [13Volume 3Issue, 72-76页]

对上海改革开放后,特别是浦东新区开发后的上海宏观经济发展和电力需求的发展历程进行分析,探索挖掘经济发展模式、产业结构调整以及季节性气温等与上海电力需求之间的关系,从产值单耗、各产业发展趋势和负荷结构3个方面对2011-2012年的上海电力需求进行预测。

4)

The left drop-down box: switch among 10, 20, 50 and 100 items shown on each page;

The middle drop-down box: sort search results by descending order or ascending order;

The right drop-down box: sort search results by relevance or by year.

3.2. Cluster Results

Figure 3.2-1: “Cluster Results” fields

Figure 3.2-2: “Subject Classification” fields

Function Introduction:

1) The “Cluster Results” by year are displayed by histogram (see Figure 3.2-1) and the system supports searching by years within the range from ten years to one year.

Click on the column of the histogram to search the article of this year.

2) Click on any item of “Subject Classification” to cluster search results according to its subject classification (see Figure 3.2-2).

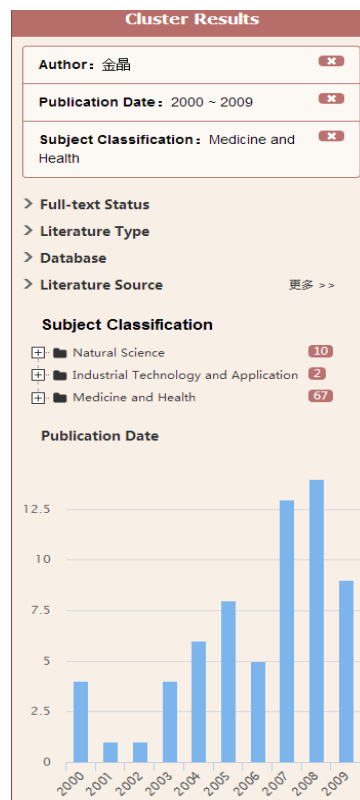

Figure 3.2-3: “Cluster Results” function

3) Click on  to delete the current cluster condition (see Figure 3.2-3).

3.3. Article Information

Figure 3.3: Article information

Interface Introduction:

- 1) Click on the article title of search results to gain the detailed information for the article (see Figure 3.3)
- 2) Field name will be displayed on the left side and field contents will be displayed on the right side.
- 3) If a user is not authorized to download the article and is required to make payment, the price information will be displayed on the bottommost; otherwise, the “Browse”, “Preview” and “Download” buttons will be displayed.

3.4. Export Index

- 1) Click on  button on the literature search interface to export the selected title index directly.

2) If a user does not select any title, the following notice will appear:

The index cannot be exported because you have not selected any item.

See Figure 3.4-1 for export results:

(1) Title:Athletics:Columbia University Chinese Crew:Chinese Crew of Columbia University:[照片]
Title:英文杂志
Year:1918 Volume:第4卷 第6期 Issue:471

(2) Title:Poem:Note.—The following is a translation of the Chinese poem on p. 28 (Chinese)……

User can cancel or keep subscription status via revising subscription status.

IP user can unsubscribe “Push Specific Titles” function via e-mail.

3.8. Search Within Literature

Figure 3.8: “Search Within Literature” function interface

Interface Introduction:

- 1) Left side: brief information for the literature;
- 2) Right side: the list of articles collected in this literature. Users can select fields to search, which is akin to the simplified version of advanced search function.

3.9. Search by Author

The interface is divided into two main sections. The left section, titled 'Cluster Results', displays search filters for the author '沈澄清'. It includes categories like 'Full-text Status' (14 available, 1 unavailable), 'Literature Type' (15 Modern Periodical), 'Database' (4 The Late Qing Dynasty Periodical Full-t..., 9 Chinese Periodical Full-text Database (1..., 5 The Late Qing Dynasty Periodical Index...), 'Literature Source' (8 义务教育, 5 浙江教育官报, 1 教育研究(上海1913), 1 群学会杂志), and 'Publication Date'. The right section shows search results for 'Article(15)', 'Picture(0)', and 'Advertisement(0)'. It includes a toolbar with 'Select All', 'Clear the Selected', 'Display Title Only', '10 Item(s)', 'Descending', 'Display Details', and 'By Year'. The results list articles with titles, authors, years, and page numbers, each with 'Browse', 'Preview', and 'Download' links.

Figure 3.9: “Search by Author” function interface

Interface Introduction:

- 1) “Search by Author” provides direct and accurate search concerning certain author. Click on the author to “Search by Author”.
- 2) Left side: clustering information; right side: search results.

4. Basic Search

4.1. Basic Search Interface

The image shows a search interface on a home page. It features a dark red background with a decorative gold border. At the top, there are six checkboxes: 'ALL Resources' (checked), 'Modern Periodical', 'Contemporary Periodical', 'Chinese Newspaper', 'Foreign Newspaper', and 'Hong List'. Below these is a search input box containing the text 'Over 50,000 sorts of newspapers and periodicals, with more than 50 million entries' and a red search button with a magnifying glass icon. At the bottom, there are three radio buttons: 'ALL Category' (selected), 'Article', 'Picture', and 'Advertisement'. To the right of these are three links: 'Advanced Search', 'Professional Search', and 'Literature Navigation'.

Figure 4.1-1: Basic search box of the home page

The image shows a search interface on an inner page. It has a light beige background. At the top, there are six checkboxes: 'ALL Resources' (checked), 'Modern Periodical', 'Contemporary Periodical', 'Chinese Newspaper', 'Foreign Newspaper', and 'Hong List'. Below these is a search input box containing the text 'Over 50,000 sorts of newspapers and periodicals, with more than 50 million entries' and a red search button with a magnifying glass icon. At the bottom, there are three radio buttons: 'ALL Category' (selected), 'Article', 'Picture', and 'Advertisement'. To the right of these are two links: 'Advanced Search' and 'Professional Search'.

Figure 4.1-2: Basic search box of the inner page

Interface Introduction:

- 1) The check box items on top line are the resource category. User can select all resources to search or conduct classification search within selected resource;
- 2) The search box in the middle is used for inputting search terms;
- 3) There are three document categories at the bottom line, namely article, picture and advertisement.

4.2. Operation Steps

Steps:

- 1) Select resource category
- 2) Select document category
- 3) Input search terms
- 4) Click on “Search” button (or press the Enter key) to conduct search.
- 5) Please refer to “General Search Function” chapter for search contents presentation.

Note:

- 1) Document category (including “Article”, “Picture”, and “Advertisement”) is associated with the resource category (including “ Modern Periodical”, “Contemporary Periodical”, “Chinese Newspaper”, “Foreign Newspaper”, and “Hong List”) selected. For example, “Modern Periodical” is only related to “Article”.

The screenshot shows a search interface with a light beige background. At the top, there is a row of radio buttons for resource categories: ☐ ALL Resources, ☐ Modern Periodical, ☒ Contemporary Periodical, ☐ Chinese Newspaper, ☐ Foreign Newspaper, and ☐ Hong List. Below this is a search input field with a blue border containing the placeholder text "Over 50,000 sorts of newspapers and periodicals, with more than 50 million entries". At the bottom, there is a row of radio buttons for document categories: ☒ ALL Category and ☐ Article. The "ALL Resources" and "ALL Category" labels are highlighted with red rectangular boxes.

Figure 4.2-1: Basic search box

- 2) The basic search doesn't support search without search terms.
- 3) If a user doesn't have any authority, the following notice will occur:

Figure 4.2-2: Non-authority search notice

- 4) Input agreement for contents in search box:
 - a) Blank space is adopted as segmentation to split search terms.
 - b) The double quotation marks “” is adopted to define search terms as a coherent phrase.

Search Again

Figure 5.1: Advanced search interface

Interface Introduction:

- 1) Left side: database list. User can choose databases by checking the boxes.
- 2) Middle part: search box. Users can make classification search according to three categories (“Article”, “Picture”, and “Advertisement”) of documents.

5.2. Operation Steps

Steps:

- 1) Select specific databases or check “Select All” in the bottom right of the database list.
- 2) Switch the document category (“Article”, “Picture”, and “Advertisement”) and select the fields for search.
- 3) Click on  to add search conditions; click on  to delete search conditions.

The image shows a user interface for combining search conditions. It features a vertical list of four search condition rows. Each row starts with a red circular button containing a white plus sign for adding conditions and a red circular button containing a white minus sign for deleting conditions. The first row is pre-filled with 'All' in a dropdown menu, an empty text input field, and 'Fuzzy' in another dropdown menu. The subsequent three rows are pre-filled with 'And' in a dropdown menu, 'All' in a dropdown menu, an empty text input field, and 'Fuzzy' in another dropdown menu.

Figure 5.2-1: Advanced search condition combination

- 4) The search condition of the advanced search supports the following conditions:

The image shows a dropdown menu for selecting search conditions. The menu is open, displaying four options: 'And', 'And', 'Or', and 'Not'. The first 'And' option is highlighted with a blue background.

Figure 5.2-2: Condition combination

And: (A and B) represents meeting A and B conditions simultaneously;

Or: (A or B) represents meeting A or B condition;

And Not: (A and non B) represents meeting A but not meeting B condition;

Or Not: (A or non B) represents meeting A or not meeting B condition.

- 5) Select search condition of “Fuzzy” or “Precise” search.

Figure 5.2-3: Search method

6) Select time scope:

7) Conduct the next search based on the previous search results by selecting the combination relationship of “Search Again”, “Search in Results”, “Add to Results”, or “Remove from Results”.

Figure 5.2-4: Search combination relationship

8) Click on “Search” to immediately present search results.

Note:

1) It is required to select at least one database from the database list; otherwise, the following notice will occur:

2) In advanced search, the search fields will automatically alter in accordance with the databases selected.

Figure 5.2-5: Advanced search fields

(Abbreviation Instruction: MP=Modern Periodical; CP=Contemporary Periodical; FN=Foreign Newspaper; CN=Chinese Newspaper; HL=Hong List)

- 3) The search time scope will automatically alter in accordance with the databases selected.
- 4) The advertisements in *The North China Daily News* and *The North-China Herald* have been deeply indexed. When selecting the two databases only, the advertisement type can be precisely classified as follows:

Figure 5.2-6: Search by advertisement type for *The North China Daily News & Herald*

- Change “Advertisement Date” to search by specific dates;
- Advertisement type supports multiple choices.

5) Select CLC, namely Chinese Library Classification, then the text box will support auto-complete feature. The user will get the matching reminder for the words input (see Figure 5.2-7):

Figure 5.2-7: CLC auto-complete feature notice

6) The advanced search will list search conditions at the bottom of the search box (see Figure 5.2-8):

Figure 5.2-8: Advanced search conditions listed at the bottom of the search box

6. Professional Search

6.1. Professional Search Interface

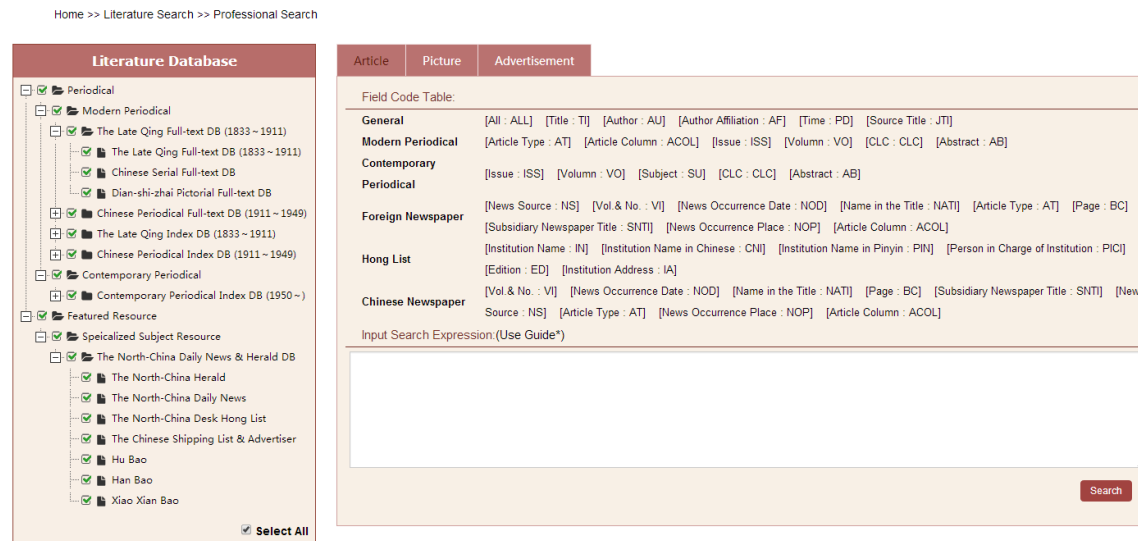

Figure 6.1: Professional search interface

Interface Introduction:

- 1) The left side shows the database list which is similar to the advanced search interface.
- 2) The search box on the right can also be divided in accordance with document category. The “Field Code Table” lists the search fields supported by current databases. Users can input search conditions in terms of the combination fields.

6.2. Operation Steps

Steps:

- 1) Select the document type and input search conditions in the search box with the search fields provided in the “Field Code Table”.
- 2) Solr search rule are adopted for professional search function:
 - a) Support search combination condition AND OR NOT;
 - b) Use semicolon “ : ” to separate the search fields;
 - c) Blank space or “()” can be applied for separation;
 - d) [TO] can be applied to support search scope;
 - e) For grammar regulation, please refer to the search condition of advanced search (see step 4 in 5.2);
 - f) Examples are as follows:
 - i. TI: 上海/Shanghai represents that the title contains resources of two characters of (上海/Shanghai). If the two characters (上海/Shanghai) are divided, resources with word (上/Shang)or (海/Hai) will be searched;
 - ii. TI: “(上海/Shanghai)” represents that the search title name shall contain all resources including (上海/Shanghai).
 - iii. TI: “(上海/Shanghai)” AND Year: [1911 TO *] represents that all the titles including (上海/Shanghai) after 1911 will be searched.

Note:

- 1) The following notice will occur when search condition is incomplete or wrong:

Introduction

南洋兵事杂志

军事刊物。创刊于1906年8月，月刊。停刊于1911年。本刊主要刊登中国近代战争史话以及国内军界学界诸君对于增益军队之进步或于各兵种学术确有心得的研究著述、转载国内外各报有关军事方面的报导、介绍中外各国军事历史以及相关的军事管理制度、探讨各国武器装备及军事部署等。其他刊名《兵事杂志》。

主要栏目有公牍、论说、步兵之学术、骑兵之学术、炮兵之学术、工兵之学术、辎重之学术、卫生之学术、测量之学术、见闻。该刊所登文章有《第九镇统制示禁军人勿入社会不准自立会名文》、《附录宪兵简章》、《军人之精神》、《军人之娱乐》、《步兵学术论》、《步兵兵员教育》、《骑兵之区别及各种之任务》、《野战炮兵战术篇》、《记德国改正野战炮兵编制》、《要塞战》、《各国筑城之沿革》、《战时诸般之培养法》、《卫生抉要》、《测量学概说》、《练兵处调验北军乐队（天津）》、《拟设宪兵（湖北）》等。

《发刊词》

南洋勉随之将校，期兵事杂志发行迫切，有若大旱之望云霓，今于督练公所总参议自为事干长。而事干则各总办携标统营官，及其他各将校任之，本其所学，增之阅历广以见闻，发为兵事之议论，掲載于杂志上，使凡为军人者，藉此可以审察外情增长学识，则教育自能普及矣。……大清光绪三十二年七月南洋督练公所。有编募兵事杂志之幸。此实南洋军事界之发达，可为庆贺，余也不才，当杂志刊行时，谨就其有益于军事之点，略述二三，以表祝贺……其他不易研究之专门学术，如测量学、卫生学、马学等均载之。又或自先进将校。提出问题以求答解，又或于他国军事界，求其新事实，以广见闻，凡此诸端，不遑枚举。故兵事杂志者，一军事学校也，图书馆也，良师也。智识交换之，机关也。其能令军事发达者，岂曰小补之哉，而发刊此杂志。非高级统官之苦心经营，焉克臻此。余爰聊献祝词，谨为南洋军队贺，为大清国之军事界贺。

6) Click on “Browse the Whole”  to enter the interface of the literature page by page (see Figure 7.2-3).

Figure 7.2-3: “Browse the Whole” function interface for *Nan Yang Bing Shi Magazine*

Input the page number into the search box at the top of the interface.

-> Click on “GO” to go to the specific page ->

Click on icon  to go to the first page;

Click on icon  to go to the last page;

Click on icon  to go to the previous page;

Click on icon  to go to the next page.

7.3. Newspaper Navigation

The interface displays the following information:

- Navigation Bar:** Home, Literature Search, Literature Navigation, User Center.
- Breadcrumb:** Home >> Literature Navigation >> The North-China Daily News(1864-1951)
- Left Sidebar:**
 - Newspaper Title:** The North-China Daily News(1864-1951)
 - Data Issued:** 1865.1-1951.3
 - Volume and Issue:** II(191)-CLVII(25957)
 - Publishing Period:** 周五,日
 - Language:** 英语
- Top Timeline:** A horizontal timeline from 1865 to 1951, with a slider and a table of years and months.
- Main Calendar Grid:** A table showing the days of the week (Mon. to Sun.) and the corresponding dates (1 to 31). The date 13 is highlighted with a red box.

Figure 7.3: “Newspaper Navigation” function interface (*The North-China Daily News* as an example)

Interface Introduction:

1) Left side: brief introduction for the newspaper

- 2) Upper right timeline: slide the timeline to select the year and month, and choose the issue date of the newspaper in the calendar below. (If the year or month is not within the scope, it is marked in gray and not available.)
- 3) Lower right monthly calendar: move mouse over the icon and click on “Browse the Whole” or “Browse the Titles” to enter the corresponding interface.

7.4. Newspaper Browse Function

Figure 7.4-1: Newspaper browse function interface

Interface Introduction:

- 1) The left top: page navigation for the current newspaper.

Figure 7.4-2: Literature catalogue for newspaper

- 7) Click on icon  to download the current page.
- 8) Click on icon  to zoom out the page; Click on icon  to zoom in the page.
- 9) Click on icon  to display the page in full screen.

The screenshot displays the CNKI website interface. At the top, there is a navigation bar with the CNKI logo and the text '全国报刊索引'. Below this, a search bar contains the text 'shanghai'. To the right of the search bar, there are links for 'Home', 'Literature Search', 'Literature Navigation', and 'User Center'. Below the search bar, there are filters for 'ALL Resources', 'Modern Periodical', 'Contemporary Periodical', 'Chinese Newspaper', 'Foreign Newspaper', and 'Hong List'. There are also buttons for 'Advanced Search' and 'Professional Search'. On the left side, there is a 'Cluster Results' section with a 'Full-text Status' dropdown set to 'Full Text' and a 'Database' dropdown set to 'Contemporary Periodical Index DB (1950~)'. Below this, there are sections for 'Literature Type' (Contemporary Periodical), 'Database' (Periodical), and 'Literature Source' (Acta Pharmacologica Sinica). On the right side, there is a list of search results. The first result is 'Effects of propofol on ischemia-induced ventricular arrhythmias and mitochondrial ATP-sensitive potassium channels' by Liu Qiang Yao Jun Yan Qian Cheng, published in 'Acta Pharmacologica Sinica' in 2012. The second result is 'Assessing Urban Environmental Management Practice with A Scalar Approach:The Case of Shanghai' by Wei Tu Sui.D. Weichun Ma, published in '中国区域经济' in 2011. The third result is 'Shanghai'上海(小说)' by Zhang Qing shan Li Lu Jin, published in 'Acta Pharmacologica Sinica' in 2012. The fourth result is 'Pharmacometrics:a quantitative tool of pharmacological research' by Li Feng Qi She Zheng Qiu Lou Dian Qiang, published in '高技术' in 2012. The fifth result is 'Fault Analysis of DCVoltage Dividers in Xiangjiaba-Shanghai ±800 kV UHVDC Project'.

8.3. Request and Purchasing Procedures of Organization Administrator (see 8.1)

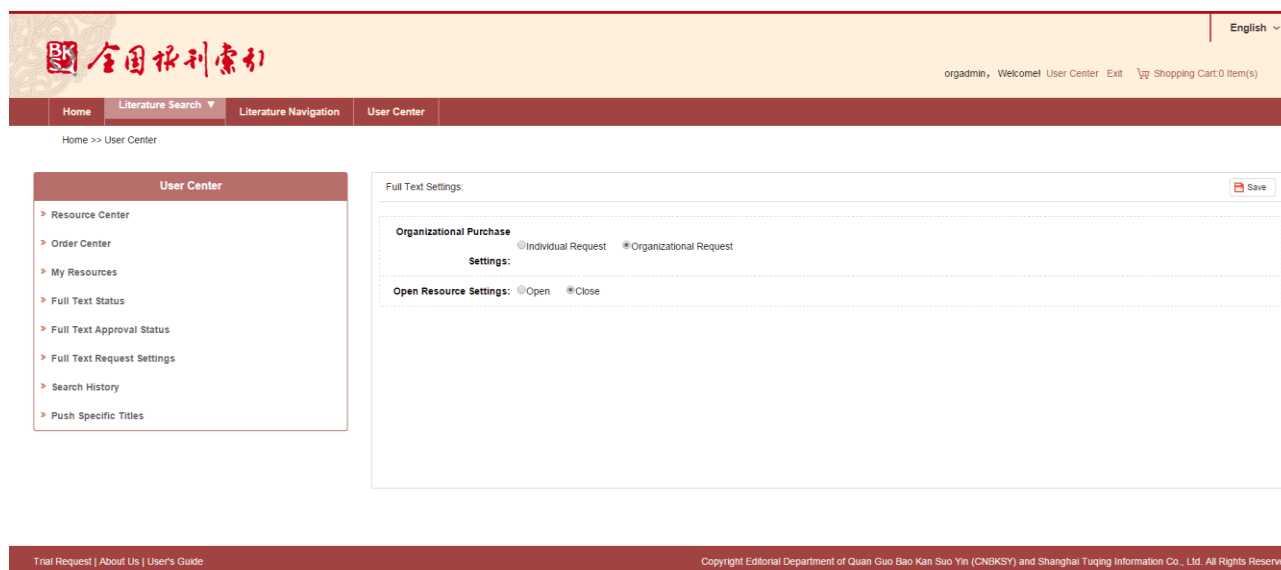

8.4. Setting and Approval of Organization Administrator

Overview

Organization supports organizational request and individual request. The organization administrator can revise full text request setting and open resource setting via setting function. When the full text request application is submitted to the organization administrator, the administrator shall check and approve the request.

8.4.1.Setting Function of Organization Administrator

Click on “User center” >> “Full Text Request Settings” to check details:

Organization Purchase Settings:

- If it is set as “Individual Request”, users in organization can only adopt individual method for request;
- If it is set as “Organizational Request”, users in organization shall submit full text request to the organization to conduct the request.

Open Resource Settings:

- If it is set as “Open”, the organization resources can be shared by users and checked in “My Resources”.
- If it is set as “Close”, user can only check the individual resources requested and purchased in “My Resources”.

8.4.2.Setting and Approval of Organization Administrator

Click on “User Center” >> “Full Text Approval Status” to check details
